Friday, November 1. 1706.

From the Leiden Gazette, dated Nov. 2.

**L** E T T E R S from Basil of the 25th of October tell us, that the Protestant Cantons were assembled at Arau, about several Affairs: That the Estates of the Swiss Bailiwicks situate on the Frontier of the Milaneze having receiv'd no Answer to a Letter they had written to Prince Eugene to desire him to annul his late Prohibition of Commerce between the State of Milan and those Bailiwicks, had sent a Deputation to him upon the same Affair, and impatiently expected the Success of it: That the Roman Catholick Cantons who have renew'd their ancient Treaty of Alliance with the Milaneze in Favour of King Philip V, were very much alarm'd, not only at the great Progress of the Allies in Italy, but likewise by the Advice they had receiv'd, that Count Trautmansdorf who is returning to Switzerland with the Character of the Emperour's Envoy extraordinary, had been at all the Passages into Switzerland to give necessary Orders for executing strictly the Prohibition of Commerce between Germany and that Country lately made by the Diet of the Empire at Ratisbon: That the said Roman Catholick Cantons began already to want Salt; and that the Canton of Lucerne in particular had sent to that of Zurich to desire to be furnish'd out of their Stores.

Cologne, Oct. 29. Our Chapter have deputed Baron Gudenau to the Duke of Marlborough in the Netherlands, to desire him to exempt this Electorate from furnishing Winter Quarters to the Troops; and Baron Bernsau is gone to the Hague to solicit the same thing of the States General. The Chapter had rather furnish a Sum of Money than Quarters. Some eminent Persons of Switzerland are gone through this City to Holland, with some Commission to the States General from the Helvetic Body. On Tuesday last the new rais'd Regiment of Bernsau pass'd in Review before the Elector Palatine at Bensberg, as will to Day that of Wigtenstein; and next Week they will pass the Rhine here, to go into Quarters in the Towns of the Country of Juliers.

Amsterdam, Nov. 2. In my last, of the 29th past, I related, that the French had made exorbitant Demands of Contributions of the Territory of the Elector of Trier, and that at the Instance of the Minister of that Elector residing at the Hague, the States had order'd their Commissary who is treating with the French about Contributions for the French Flanders, to endeavour to prevail with them to moderate their Demands on the Country of Trier: Now I think it worth while to send you the Memorial that was presented to the

States by the said Resident on that Subject, that you in England may have some Notion what Circumstances those Countries are in that border on the Theatre of the present War.

High and Mighty Lords,

**T** H E Treaty with France for the Contributions of the Country of Trier being shortly to be renew'd, and his Electoral Highness of Trier being inform'd your High Mightinesses are at this Time Treating of Contributions with that Crown, as also that the Subjects of the Bishoprick of Metz have obtain'd Leave from the King of France to agree upon Contributions with your High Mightinesses Commissaries at Traerbach, his Electoral Highness has order'd his underwritten Councillor of State and Resident to remonstrate to your High Mightinesses how excessive the Contributions are which the French demand of his poor Subjects: For they not only demand a Sum that is more than double the ordinary Subsidies and Taxes, but daily make so many Demands of Pallisades, Pioneers, Fascines, Wood, Utensils, Forrage, &c. as amount to more than the Contributions themselves. The said Councillor and Resident is likewise commanded to represent to your High Mightinesses, that contrary to all Custom of War, according to which there can be no Confiscation where Contributions are paid, they confiscate and sell by Auction the Domaines of his Electoral Highness, obliging him to purchase them at more than their Value, least his Receivers and Subjects should be left expos'd to innumerable Vexations and Extortions from a higher Bidder: That his Electoral Highness contributed so much, as all the World knows, to the furnishing of Artillery, Ammunition, Forrage, Pioneers, and Horses, for the retaking of the said Traerbach, that he thinks he may with good Reason pretend to his Share of the Contributions that are rais'd by Means of the Garrison in that Place. Wherefore the underwritten Councillor and Resident most humbly intreats your High Mightinesses, that after having consider'd these Remonstrances, you will let his Electoral Highness have Part of the said Contributions of the Bishoprick of Metz; or taking the Opportunity of the Treaty you are now making, will interpose your powerful Offices with the French, that at the Renewing of the Treaty of Contributions with the Country of Trier, the French may demand no more than the Sum of the ordinary Subsidies and Taxes with the usual Abatements, as your High Mightinesses deal with the Countries you treat with for Contributions; that they may desist from further Exactions, as also from the Confiscation of the Domaines of his Electoral Highness, or at least that they may set them at a reasonable Value. His Electoral Highness does the rather hope your High Mightinesses will

will do him the Kindness to interpose your good Offices in his Favour, because it would be unjust that his poor Country should be overburthen'd by the Enemy, while their Country is treated equitably by your High Mightinesses, and because by the happy Success of this glorious Campaign you are in a better Condition than ever to compel the Enemy to mutual Equity and Reason, as well with respect to your selves as to all your good Allies. Done at the Hague, the 3th of October 1706.

Sign'd,

De Keyserfeldt
